Press Release

Tree Removal Program Available in Paradise

Preparations are being made to continue a tree removal program aimed at removing dead and dying hazardous trees that could impact new construction or standing homes. Many residents within Paradise face issues regarding hazardous trees inhibiting rebuilding or threatening life in standing homes.

Three generous community organizations are supporting the effort:

1. The Paradise Rotary Foundation has awarded the Butte County Fire Safe Council, a local non-profit organization, a \$200,000 grant.
2. The North Valley Community Foundation-Butte Strong Fund awarded a \$50,000 grant.
3. Golden Valley Bank Community Foundation awarded \$50,000.

Areas of priority for the program will be those where landowners with property adjacent to new construction/standing home sites have abandoned the property or cannot be located. Additional priority will be given to hazardous trees that did not qualify for the State-Run Tree Removal

Program. Residents can call (530) 877-0984 to sign up and will be evaluated on a case-by-case basis.

The Butte County Fire Safe Council is a non-profit grass roots education community organization. Educational materials regarding replanting, wildfire recovery, and wildfire safety are available through the Butte County Fire Safe Council, call 530-877-0984 to request delivery.
