## Notice of Fuels Reduction: Cohasset Mastication Project - Continued

**Date:** 8-15-2023

**Contact:** Calli-Jane West

**Website:** [Buttefiresafe.net](http://Buttefiresafe.net)

**Phone:** (530) 877-0984

*SNC 1378 Mastication Overview*

The Project is strategically located between Maple Ln. and Vilas Rd and consist of 32 acres of mastication. The location is part of a greater effort to connect previously completed and upcoming projects to provide overall community safety. Understory vegetation will be reduced through mechanical mastication to restore forest health and establish a fuel break for the community on up to 200 acres.

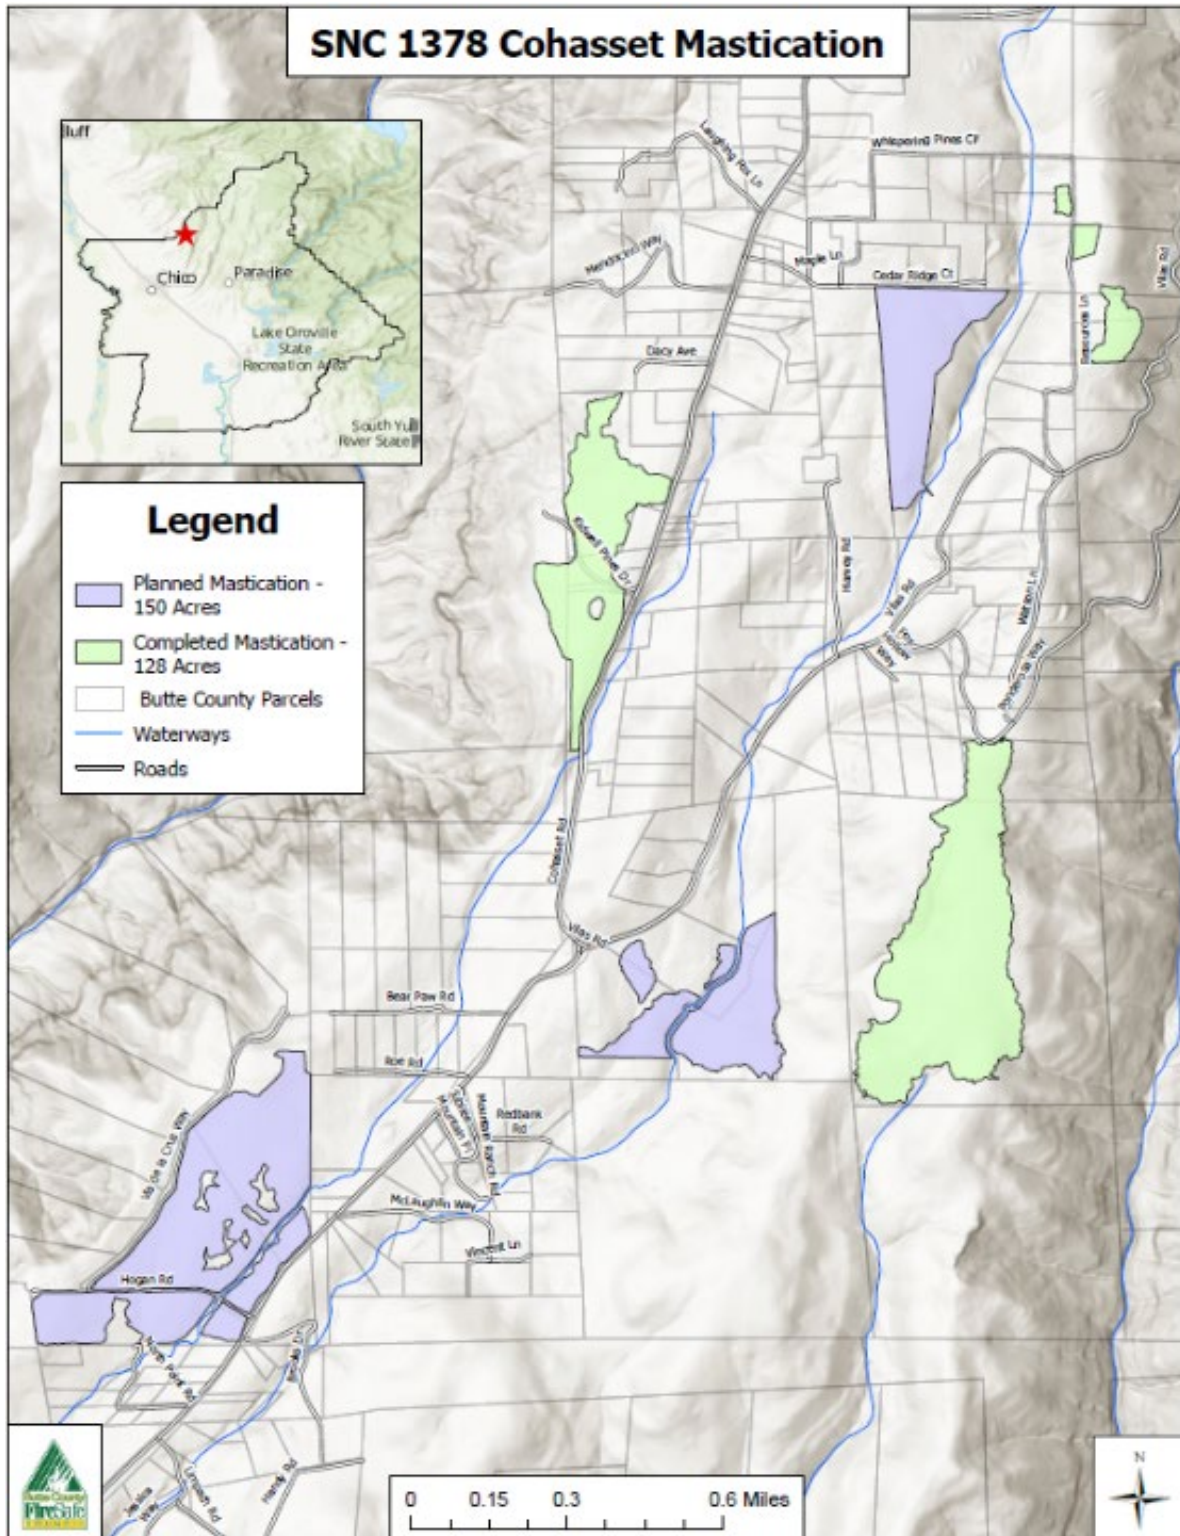

As part of the ongoing efforts to increase public safety and reduce hazardous fuels in the community of Cohasset, the Butte County Fire Safe Council (BCFSC) in partnership with the Cohasset Fire Safe Council, and Sierra Nevada Conservancy (SNC) will be conducting fuels reduction in the manner of mastication to reduce dense vegetation, as well as restore forest health and improve watershed resilience.
