

HOW TO PREPARE YOUR HOME FOR WILDFIRES

WILDFIRE RISK REDUCTION STEPS THAT CAN MAKE YOUR HOME SAFER DURING A WILDFIRE

■ VEGETATION MANAGEMENT

1. HOME IGNITION ZONES

To increase your home's chance of surviving a wildfire, choose fire-resistant building materials and limit the amount of flammable vegetation in the three home ignition zones. The zones include the **Immediate Zone**: (0 to 5 feet around the house), the **Intermediate Zone** (5 to 30 feet), and the **Extended Zone** (30 to 100 feet).

2. LANDSCAPING AND MAINTENANCE

To reduce ember ignitions and fire spread, trim branches that overhang the home, porch, and deck and prune branches of large trees up to 6 to 10 feet (depending on their height) from the ground. Remove plants containing resins, oils, and waxes. Use crushed stone or gravel instead of flammable mulches in the **Immediate Zone** (0 to 5 feet around the house). Keep your landscape in good condition.

■ FIRE RESISTIVE CONSTRUCTION

3. ROOFING AND VENTS

Class A fire-rated roofing products, such as composite shingles, metal, concrete, and clay tiles, offer the best protection. Inspect shingles or roof tiles and replace or repair those that are loose or missing to prevent ember penetration. Box in eaves, but provide ventilation to prevent condensation and mildew. Roof and attic vents should be screened to prevent ember entry.

4. DECKS AND PORCHES

Never store flammable materials underneath decks or porches. Remove dead vegetation and debris from under decks and porches and between deck board joints.

5. SIDING AND WINDOWS

Embers can collect in small nooks and crannies and ignite combustible materials; radiant heat from flames can crack windows. Use fire-resistant siding such as brick, fiber-cement, plaster, or stucco, and use dual-pane tempered glass windows.

■ BE PREPARED

6. EMERGENCY RESPONDER ACCESS

Ensure your home and neighborhood have legible and clearly marked street names and numbers. Driveways should be at least 12 feet wide with a vertical clearance of 15 feet for emergency vehicle access.

- Develop, discuss, and practice an emergency action plan with everyone in your home. Include details for handling pets, large animals, and livestock.
- Know two ways out of your neighborhood and have a predesignated meeting place.
- Always evacuate if you feel it's unsafe to stay—don't wait to receive an emergency notification if you feel threatened from the fire.
- Conduct an annual insurance policy checkup to adjust for local building costs, codes, and new renovations.
- Create or update a home inventory to help settle claims faster.

Suggested items and actions to take to complete your Go Kit (you can probably think of a few more!)

IMPORTANT CONTACTS

- » Fill a small notebook with information about your important contacts. Ask your parents or guardians to help get this information for you:
 - Work and cell phone numbers for your parent(s) or guardian(s), as well as their work address and an alternate contact at their work in case they are away from their phone.
- » Phone numbers of relative(s) who live out of state, in case local cell towers don't work.
- » Addresses and phone numbers of your closest friends.
- » Names/addresses of three safe locations to meet in case you are away from home and school, such as the local library, a friend or neighbor's home, local police station, hospital, or community center.
- » Information about any medical condition you have or medication that you are on and the name and phone number of your doctor.
- » If you wear glasses, the prescription information for them.
- » Phone numbers for neighbors. They may be able to check on your home or pets.

Family Communication Plan

Emergencies can happen at any time. Does your family know how to get in touch with each other if you are not all together?

Before an emergency happens, have a family discussion to determine who would be your out-of-state point of contact, and where you would meet away from your home — both in the neighborhood and within your town.

*Let them know
you're OK!*

Pick the same person for each family member to contact. It might be easier to reach someone who's out of town.

Important Information

Fill in this information and keep a copy in a safe place, such as your purse or briefcase, your car, your office, and your disaster kit. Be sure to look it over every year and keep it up to date.

EMERGENCY!

Keep this guide close by.

Discover what you need to:

- Prepare for an emergency.
- Understand emergency weather warnings and evacuation terms.
- Find information from official sources during an emergency.

Be Prepared

Be Informed

Stay In the know

Be Prepared

Visit **READY, SET, GO!**

www.ReadyForWildfire.org

Learn more about being prepared.

Have a Go Bag

Duffle bag with 48 hours of supplies, water, snacks, medications, toiletries, credit cards and cash, important documents and computer files—and, if you have a pet, pet food, water and supplies.

Radio & Mobile Devices

You can receive information during an emergency by keeping your mobile devices charged and monitoring a battery-operated radio.

Community Evacuation Plan

Do you have yours?

Go to Butte County Office of Emergency Management at www.ButteCounty.net/OEM/DisasterPreparedness and download the evacuation plan for your community.

Be Informed

Learn Severe Weather Terms

Watch: “Be aware.” Conditions are favorable for the development of severe weather which could impact fires.

Warning: “Take action.” Weather conditions pose a threat to life or property. Potential for critical fire behavior.

Learn Evacuation Terms

Evacuation Warning: Alerts people in an affected area(s) of potential threat to life and property. People who need additional time should consider evacuating at this time. An Evacuation Warning considers the probability that an area will be affected and prepares people for the potential of an Immediate Evacuation Order.

Immediate Evacuation Order: Requires the immediate movement of people out of an affected area due to imminent threat to life. Choosing to stay could result in the loss of life. Staying may also impede the work of emergency personnel. Due to the changing nature of the emergency, the Immediate Evacuation Order may be the only warning people in the affected area(s) receive.

Public Assembly Point: A temporary assembly area that provides a safe haven for evacuees to assemble until conditions subside and evacuation routes are accessible, or for evacuees who otherwise cannot evacuate the community on their own and need assistance to be moved to a shelter. Note: Evacuees who are capable of evacuating on their own to designated shelters or other areas outside of their community do not need to go to Public Assembly Points unless directed by public safety officials.

“Ready, Set, Go” Evacuation Plan

Get ready!

Prepare your family...

Create an evacuation plan that includes:

- ▲ A designated emergency meeting location outside the fire or hazard area. This is critical to determine who has safely evacuated from the affected area.
- ▲ Several different escape routes from your home and community. Drive these routes often so everyone in your family is familiar with them.
- ▲ An evacuation plan for pets and large animals such as horses and other livestock. Go to NVADG.org
- ▲ A Family Communication Plan that designates an out-of-area friend or relative as a point of contact to act as a single source of communication among family members in case of separation. (It is easier to call or message one person and let them contact others than to try and call everyone when phone, cell, and internet systems can be overloaded or limited during a disaster.)
- ▲ Sign up for Emergency Notifications at www.buttecounty.net/massnotification

Be Prepared:

- ▲ Have fire extinguishers on hand and train your family how to use them (check expiration dates regularly).
- ▲ Keep your gas tank at least half full at all times.
- ▲ Assemble a Go Bag (emergency supply kit) for your family and pets.
- ▲ Keep a list of emergency contact numbers available.
- ▲ Post your address by your driveway so it's clearly visible.
- ▲ Obtain street maps for the city and county; keep them in your car or download them to your smart device.
- ▲ Keep a Go Bag in your car in case you cannot get to your home.
- ▲ Ensure that your family knows where your gas, electric, and water main shut-off controls are located and how to safely shut them down in an emergency.
- ▲ Make your home/property more fire safe; find resources at www.buttefiresafe.net and www.readyforwildfire.org

Our household safety plan (complete before an emergency incident):

Our address _____ Phone _____

In the event of an evacuation, we will meet at _____

Animals: North Valley Animal Disaster Group (NVADG) Hotline: 530-895-0000; NVADG.org

During an evacuation, we'll take our animals to _____

Local contact (neighbor/relative): In the event that roads are closed, our local contact to care for children and pets is

Name _____ Phone _____

Out of area contact/phone _____ School phone _____

Other important contacts _____

We have neighbors who may need help (persons with disabilities or persons with access and functional needs) _____

Fire info: (530)538-7826 Sheriff's Emergency info: (833)512-5378

Get set!

If you feel threatened, evacuate!

Home Evacuation Checklist – How to Prepare for Evacuation

Prepare for Evacuation

- ▲ Alert family and neighbors.
- ▲ Dress in appropriate clothing (i.e. clothing made of cotton or wool and work boots). Have gloves, goggles, a dry bandana and dust mask handy.
- ▲ Grab your Go-bag and add last minute items.
- ▲ Check official social media sites, tv stations, local radio and the emergency phone numbers on page one of this plan.
- ▲ Drink plenty of water and prepare your family and pets.

Inside the house

- ▲ Shut all windows and doors, leaving them unlocked.
- ▲ Remove flammable window shades and lightweight curtains. Close metal shutters.
- ▲ Move flammable furniture to the center of the room, away from windows and doors.
- ▲ Shut off gas at the source (meter or tank). Turn off pilot lights.
- ▲ Leave your lights on so firefighters can see your house under smoky conditions.
- ▲ Shut off the air conditioning.

Outside the house

- ▲ Put your Go Bag in your vehicle.
- ▲ Back your car into the driveway with vehicle loaded and all doors and windows closed. Carry car keys with you and have a spare. Leave gates open for access.
- ▲ Check on neighbors and make sure they are preparing to leave.
- ▲ Gather up flammable items from the exterior of the house and bring them inside (patio furniture, toys, door mats, trash cans, etc.) or place them in your pool.
- ▲ Turn off propane tanks.
- ▲ Move propane BBQs and appliances away from structures.
- ▲ Connect garden hoses to outside water valves or spigots for use by firefighters. Fill water buckets and place them around the house.
- ▲ Don't leave sprinklers on or water running, they can affect critical water pressure.
- ▲ Leave exterior lights on so your home is visible to firefighters in the smoke or darkness of night.
- ▲ Have a ladder available and place it at the corner of the house so firefighters can quickly access roof.
- ▲ Seal attic and ground vents with pre-cut plywood or commercial seals.
- ▲ Patrol your property and monitor the fire situation. **Don't wait for an evacuation order if you feel threatened.**

Remember the Six “P’s”

People and pets

Papers, phone numbers, important documents

Prescriptions, vitamins, eyeglasses

Pictures and irreplaceable memorabilia

Personal computer, hard drive, discs

Plastic (credit & ATM cards), cash

Keep these six “P’s” ready in case immediate evacuation is required.

Animals: Go to NVADG.org

- ▲ Locate your pets; transport them with you. Need help? Call NVADG: 530-895-0000
- ▲ Prepare and transport large animals early to a safe location.

When an evacuation order is issued by public safety officials or you feel threatened, leave immediately to avoid being caught in fire, smoke or road congestion. In an intense wildfire or other evacuation order, officials will not have time to knock on every door. Listen for high-low sirens.

- ▲ Advisements of potential evacuations will be given as early as possible. You must take the initiative to stay informed and aware when an evacuation is ordered or a warning has been issued. For announcements, call 2-1-1, listen to your radio, TV and monitor official social media sites from public safety and governmental agencies. For exact evacuation warnings and orders, call the Fire Info or Sheriff's Info phone numbers located on the first page.
- ▲ Areas to be evacuated and escape routes will depend upon the emergency's location, direction of travel and severity. Know your map as well as zone, if indicated. Look at the possible routes you might be directed to use.
- ▲ You may be directed to a designated Public Assembly Point for your immediate safety—and later to an evacuation shelter.

If you are trapped...

In your home:

- ▲ Stay calm, keep your family and pets together.
- ▲ Call 911 and inform authorities of your location.
- ▲ Keep doors and windows closed, but unlocked.
- ▲ Stay away from outside walls and windows.

On foot:

- ▲ Stay calm.
- ▲ Go to an open area clear of vegetation, a ditch or depression on level ground if possible.
- ▲ Lie face down, cover up your body.
- ▲ Use your cell phone to advise officials of your location—call 911.

In your vehicle:

- ▲ Stay calm.
- ▲ Park your vehicle in an open area clear of vegetation.
- ▲ Close all vehicle windows and vents.
- ▲ Cover yourself with a wool blanket or jacket.
- ▲ Lie on vehicle floor board.
- ▲ Use your cell phone to advise officials of your location—call 911.

BE PREPARED. During an evacuation you may be away from your home for an extended time. Be prepared with your completed Household Safety Plan (see page 1 of this document) and be ready to implement it. You may be directed to evacuate outside the area.

Evacuation advisories to be prepared for:

Evacuation Order: Requires the immediate movement of people out of an affected area due to an imminent threat to life. Choosing to stay could result in loss of life. Staying may also impede the work of emergency personnel. Due to the changing nature of the emergency, an Evacuation Order may be the only warning that people in the affected area(s) receive.

Evacuation Warning: Alerts people in an affected area(s) of potential threat to life and property. People who need additional time should consider evacuating at this time. An Evacuation Warning considers the probability that an area will be affected and prepares people for a potential Immediate Evacuation Order.

Shelter in Place: Advises people to stay secure at their current location by remaining in place as evacuation will cause a higher potential for loss of life.

Rescue: Emergency actions taken within the affected area to recover and help injured or trapped citizens leave the area. Entry into this area is restricted to rescue workers only.

Be Prepared:

During an evacuation you may be away from your home for an extended time. Be prepared with your Household Safety Plan (see page 1 of this document) and be ready to implement it.

Assembly Point

A temporary assembly area for evacuees to assemble until conditions subside and evacuation routes are accessible, or for evacuees who otherwise cannot evacuate the community on their own and need assistance to be moved to a shelter. Note: Evacuees capable of evacuating on their own to designated shelters or other areas outside of their community do not need to go to Public Assembly Points unless directed by officials.

Keep a copy of this plan in your car and home.

Funding provided by North Valley Community Foundation and the Butte Strong Fund.

One-Way Evacuation Operations

“One-Way Evacuation Operations” means that all the travel lanes on a designated section of road would proceed in one direction as residents and visitors leave the area in advance of a wildland fire or emergency.

Key Points

- ▲ Primary Evacuation Plans will be implemented first. If these plans are proving effective in handling the evacuating traffic, then a One-Way Evacuation Operation is not likely to be implemented. One-Way Evacuation Operations are most likely to be used in populated areas.
- ▲ Emergency responders will decide if One-Way Evacuation must be implemented based on the specific needs of the incident. Entry and termination points will be determined based on the location, direction and rate of the fire spread.
- ▲ Be sure to obey the officers' directions and follow the traffic cones and other route markers. All state highway safety regulations and traffic laws apply for the reversed lanes, including speed limits.
- ▲ Message boards may be used to provide key information at the beginning of the reversed lane to assist you with your choices.

- ▲ Law enforcement officers or other personnel will be at the entrance and termination of the route directing traffic. Do not stop to ask questions because officials will not answer questions and this will slow the evacuation process.
- ▲ Check social media sites, tune into local radio and TV stations or call 2-1-1 for emergency information about the One-Way Evacuation route.
- ▲ Vehicles entering the One-Way Evacuation route are expected to travel to the end of the route.
- ▲ Commercial vehicles, recreational vehicles and those towing boats or other trailers should remain in the right hand travel lanes.
- ▲ Stay with your vehicle at all times.

What Routes will be used for One-Way Evacuation?

- ▲ Routes will be based on the specific needs of the incident. Entry and termination points will be determined based on the location, direction and rate of the fire spread.

If your vehicle stops working, pull it as far off to the side of the road as you can.
